## Three new faces join engineering staff at United Air Specialists

**CINCINNATI, OH – July 11, 2006** – United Air Specialists Inc. (UAS), the Blue Ash-based manufacturer of commercial and industrial air cleaning equipment, has recently added three new people to its engineering department.

- **Brad Zorb** joined UAS as a product engineer. Zorb recently graduated from the University of Wisconsin-Platteville with a bachelor's degree in mechanical engineering. As a product engineer, he will focus on new product development.
- **Thomas Matz** was recently added to the engineering team at UAS as a product engineer. In his role, Matz will process custom orders, provide application support and participate in new product development. Matz has experience with control panel building, machine tool wiring and maintenance of automated warehouse equipment. He received a bachelor's degree in electrical engineering from Wright State University.
- **Dave Foust** also joined the engineering department as a senior mechanical designer. In this position, he will work on new product development. He earned an associate's degree in mechanical engineering from Cincinnati State.
